Abstract of JP2001289748

PROBLEM TO BE SOLVED: To provide a urine collection bottle used for the urine analysis, urine test, and the like of race horses, etc., capable of dispensing with experience required for collecting and testing the urine of the race horses, and of improving the efficiency of the collection and the test.

SOLUTION: A funnel is equipped with two urine collecting tanks, and both tanks are sealed after collecting urine. Thereby the collection and testing of the urine can be performed quickly and accurately.
